At VBKOM (Pty) Ltd, we are passionate about delivering world-class technical mining solutions to a diverse portfolio of blue chip and junior mining clients. Our multidisciplinary team thrives on tackling complex challenges across geological modelling and interpretation, mining engineering, metallurgical engineering, industrial engineering, and project & risk management — and we're growing. We offer our consultants the opportunity to work on high-impact projects spanning multiple commodities, both locally and internationally, in a collaborative and entrepreneurial environment where your expertise truly makes a difference. If you are driven by technical excellence, enjoy variety in your work, and want to be part of a team that values innovation and continuous growth, VBKOM is the place for you.

VBKOM is looking for a mining professional with extensive mining operational as well as optimization, design and scheduling experience. The candidate will also be exposed to various other commodities within open pit and underground technical services.

The successful applicant will be responsible for:

- › Performing technical mining planning tasks and outputs on an expert level
- › Sourcing geological information and converting it into mining models - Block modelling & re-blocking
- › Perform Mining Studies (MWP, LOM, MTP, STP, Scoping/Concept, PFS, BFS)
 - Pit/Stope Optimisation
 - Mine Design
 - Mine Scheduling
 - Equipment Selection/Optimisation
 - Mine Cost Modelling
- › Due Diligence Studies and Technical Audits
- › Mining Right and Prospecting Permit Application
- › Operation Support
 - On-site planning & contractor management
 - Productivity Improvement
 - Equipment Usage Improvement
 - Mining Operational Readiness
- › Trade-off studies / Options analysis
- › Lead and own Projects + Multiple projects involvement
- › Mining related Inputs for Financial Modelling
- › Technical Reports and CPR's
- › Building service offering toolkits and competency
- › Training, developing and mentoring team members
- › Technical Project Management
- › Workshop Facilitation
- › To continuously stay up to date with new technical/mining engineering developments and take personal accountability for personal development.

Requirements:

- › Qualifications: BEng Mining Engineering
- › 5 - 15 years' related experience
- › Preferable: Consulting experience of at least 2 years
- › Alignment with the VBKOM values published on our website at www.vbkom.com.
- › Proficient in Mining Software (e.g., Surpac, Deswik, MineRP)
- › Experienced in all project and operational phases
- › Building Client Relationship
- › Entrepreneurial and Commercial Thinking
- › Ability to use initiative and assume responsibility with an innovative mindset
- › Organized and structured
- › Strong focus on producing results
- › Excellent communication skills
